

Industrial Design Network

Jan 13, 2012

The Project consists of mechanical design of 2D and 3D programmes through innovative teaching tools such as PBL, IDEAL and teamwork, as well as innovative technological tools such as videoconferencing, Skype, Google Docs, WebEx, and Moodle and social networks.

The educational centers participating are: Txorierri, Somorrostro, Maristak, Faculty of Engineering (University of Mondragon), Miguel Altuna, La Salle Berrozpe, Diocesanas, Jesús Obrero and IT Miranda. They are also supported by the company Etxe-Tar and Hetel (higher level vocational training centers association).
