

## KIMU BERRI exhibition

Sep 25, 2013

35 projects have been presented in this exhibition, on panels or models, made by degree or master students of Mondragon University.

In addition, this year there are also video clips and advertisements made by students from the Audio-visual Communication degree which is taught in the campus of Aretxabaleta.

At the inauguration of the exhibition there were also many students from Mondragon University, members of Kimu Berri and the mayor of Mondragon.

KIMU BERRI is an initiative whose aim is to promote the entrepreneurship of young people, adopting for this purpose themes and technologies specific to the sociology of today's youth. This time the theme revolves around "Smart Cities".
