

Technology camp at MU

Dec 18, 2013

The Faculty of Engineering of Mondragon Unibertsitatea with the collaboration of Arizmendi Ikastola and CampTecnológico, offers a new edition of "Christmas Technology Camp". The camp will take place from 30th December to 3rd January in the Faculty of Engineering.

The main point of the camp is going to be robotics but on this edition video game developments and mobile applications will also have an important place. This kind of activities shows once again how young people enjoy learning science and technology in an entertaining way.
