

The third edition of the Erasmus program has brought 14 students

Sep 08, 2009

The Erasmus students have already reached HUHEZI. This time, the third edition of the program, there are fourteen students, nine more than last year. Ten students will study Education, while the remaining four will be integrated in Media studies. Here's the list:

- **Morten Mortensen.** VIA University College, Silkeborg, Denmark. Education.
- **Corine Jansen.** Rotterdam University College, Netherlands. Education.
- **Dexter Hauwert.** The Hague University, Netherlands. Education.
- **Nathalie Van der Most.** The Hague University, Netherlands. Education.
- **Tiina Karvonen.** University of Oulu, Finland. Education.
- **Feryal Gadaan.** Linköping University, Sweden. Education.
- **Evelien Schroyen.** KHLim University College, Belgium. Education.
- **Valérie Desautez.** KHLim University College, Belgium. Education.
- **Sanne Vanmechelen.** KHLim University College, Belgium. Education.
- **Jorge Andreo-Juez.** KHLim University College, Belgium. Education.
- **Nike Reynders.** XIOS University College, Belgium. Media.
- **Sanne Jehoul.** XIOS University College, Belgium. Media.
- **Koen Louage.** XIOS University College, Belgium. Media.
- **Michael Peters.** XIOS University College, Belgium. Media.

On September 7, Monday, they got a **warm welcome** in HUHEZI. In the morning, they were given all the details about the course, they were shown round the Faculty, were provided with the necessary elements to facilitate digital communication, and they heard about their Practicum.

On September 9 there will be a trip, so they can see some of the most colorful places in the Leintz Valley: Udala, Garagartza, Barajuen, Urkulu and Apetzaga.

These fourteen students will stay in HUHEZI **until next Christmas**. During that time, sometimes they will be academically integrated with the rest of the students of the faculty, but other times they will have their own program. With respect to the practicum, the Education students will work in various schools in the valley, while those in the Media will do it in EITB, the biggest communication company in the Basque Country.
