

## Incoming exchange students at Faculty of Engineering – Mondragon University

Feb 12, 2013

33 students from all over the world have been welcomed to our Polytechnic High School of Mondragon University for the spring semester. These students, from Poland, Mexico, China, Turkey, Czech Republic, Italy, France, Slovakia and India, have been accepted as exchange students to carry out a subject semester or a project-internship at University's laboratories or surrounding companies. Most of them will be attending our Faculty until July.

During the welcoming day that took place on 5<sup>th</sup> February, exchange students had the opportunity to know from first row Mondragon Corporation and its presentation video, the Faculty, its facilities and useful information and after an intense morning, they were treated to a lunch at the Faculty's canteen.

Welcome to everyone! We hope you will enjoy your stay!
