

Conference on Lean Methodology

Jan 16, 2014

Jaione Ganzarain and Nekane Errasti researches from the Faculty of Engineering at Mondragon Unibertsitatea, are going to give a lecture this Friday 17th in Debegesa (Azitain area) from 9:00 to 11:00.

The main objective of the lecture is to disseminate to local firms an experimental project promoted by Mondragon Unibertsitatea together with the Regional Development Agency Debarrena. This project provides to SMEs:

- A learning process to organize a Diversification Agenda in areas such as leading markets / strategic sectors. In this learning process the involved parts are: firms, university and public institutions. Firms reflect, observe and design their opportunities.
- Projects to train in technology, market, product/service, processes.
