

Undergraduate students from Leinn and Audiovisual communication work in collaboration with EITB

Oct 15, 2014

On October 15, final year students of Entrepreneurship and innovation (Leinn) at the Faculty of Business, and of Audiovisual Communication at the Faculty of Humanities and Education carried out a joint activity on the Aretxabaleta campus. The work session, called *Birth Giving*, started at 08:30 and was held in collaboration with EITB. In this session students endeavored to solve a case raised by the representatives of the Basque public radio and television.

The objectives of this activity were, first, to promote a closer relationship between faculties and students from different degrees and, on the other hand, to work on the possibility of collaboration on a Final Degree Project (FDP) to be put forward by EITB.

The head of entertainment at EITB Itziar Azpeitia, along with Editor-in-chief of ETB Mikel Urrertabizkaia have taken part with teachers and degree students in the *Birth Giving* event.
