

**Please, complete your evaluation now.**

Please, fill out the following questionnaire to assess the experience you've just had with the robot. It consists of pairs of opposing properties that the robot may possess. Gradations between the opposites are represented by circles. You can express your satisfaction with a property by marking one of these circles that best reflects your impression.

Example:

	3	2	1	0	1	2	3	
Attractive	0	x	0	0	0	0	0	Not attractive

This gradation would mean that you evaluate the product as more attractive than not attractive..

Please, decide spontaneously. Do not overthink your opinion and ensure that you express your initial feeling. Please, mark a circle for each pair of properties, even if you think they are not applicable or that there are similar or practically identical properties. Your personal opinion matters. Remember: there is no right or wrong answer!
