

Ika Mizka

Feb 14, 2013

We at Gaztezulo, together with the Autonomous Regional Government of Guipuzcoa, Mondragon University and the University of the Basque Country (UPV/EHU) would like to let you know that we are setting up the second edition of IKA-MIZKA. ETA HIK? NOLA BIZI DUNK EUSKARA?

This event is aimed at making young people aware of the importance of using Basque, of reinforcing the commitment to living in Basque.

This year, Ika Mizka comes in the form of a circuit and will have three stops: the first on 24th October in Ordicia (in Goierri Campus of Mondragon University), the second on 14th November in Eibar (in the University School of Technical Industrial Engineering of the UPV/EHU) and the third will coincide with the International Day of Basque, on 3rd December in Irun (Bidasoako Campus of Mondragon University).

Like last year, participating in Ika-Mizka will be well-known faces from various fields who come together with young people in working sessions to discuss the ways of living in Basque.

Announcing each of the day's events that make up the circuit, one week in advance there, will be a promotional video. In these videos you will hear professionals who have decided to create their work in Basque speaking sincerely about their joys and sorrows.

Here we present you with the first video:

Any young people wishing to participate in this event can register on the website GAZTEZULO.COM where you will also find detailed information about the event.

Come and join us.
