

## Let's GO IIT Guwahati!

Feb 19, 2015

The Erasmus Mundus Project "INTERWEAVE", [www.interweave-ema2.eu](http://www.interweave-ema2.eu), has allowed an initial exchange of students and staff between both institutions that now is extended to include staff mobility and other academic collaboration activities. Up to now, a person from IITG, [www.iitg.ac.in](http://www.iitg.ac.in), is doing a three years doctorate in the Advanced Material Forming Processes Group and a person, doing her doctorate at the Fluid Mechanics Group, is doing a six months stay in India. A MU's alumni is also at IITG following a two years Master on Computer Assisted Manufacturing at IITG.

MONDRAGON UNIVERSITY will be offering, especially at the Faculty of Engineering, exchange stays for up to three students in the next academic year and for staff anytime. More information at the International Office, <http://www.mondragon.edu/en/international/international-staff>
