

The championships of GEP have already begun on the campus of Arrasate

Oct 13, 2016

Like all courses, each faculty and campus of MONDRAGON UNIBERTSITATEA organizes its internal championships.

The aim is to promote physical activity in addition to seeking the representatives of the faculties and university in the championship of MONDRAGON UNIBERTSITATE and the Basque Championship of University Sports.

In the case of Arrasate, this week have begun futsal championships and racquetball couples. It is expected to start with the basketball, racquetball individual... next week. In total they have signed more than 120 boys and girls in these championships to be played between October and December.

On the other hand, we hope to start with the championship on the campuses of Orona Ideo and Goierri in the coming weeks and in the other faculties of the university.
